The mission of the Association for Experiential Education is to promote and expand the global capacity of experiential learning

OUR HISTORY

In the early 1970s, a group of educators assembled in Boone, North Carolina, USA, to discuss ways in which education could be made more relevant for students. These people knew that the core of learning is greatly enhanced by experiential forms of education.

Now, with approximately 1,500 members in 32 countries, AEE's diverse membership consists of individuals and organizations with affiliations in education, recreation, outdoor adventure programming, mental health, youth service, physical education, management development training, corrections, programming for people with disabilities, and environmental education.

OUR VISION

The vision of the Association for Experiential Education is to contribute to making a more just and compassionate world by transforming education.

AEE does not discriminate on the basis of race, religion, gender, sexual orientation, age, physical ability, or professional affiliation in matters of employment or application for membership.
